

Creating actions from the feedback we received

**Travel and Transport Working Group
4th August, 2017**

Key themes

- **Parking** – hospital sites
- **Access** – built environment, access to GP services, signage and information
- **Travel between hospital sites** – shuttle bus/bus service and bus stops
- **Public transport**
- **Reduce travel** – technology and care close to home, care pathways
- **Discharge and patient transport**
- **Other** – road networks and infrastructure, mobile services, ambulance

Travel and transport working group actions

1

- Identify current arrangements

2

- Reflect on the feedback received

3

- Present recommendations

Present findings

Patient Transport

Current position:				
What people have told us:	<i>Quality of service</i>	<i>Vehicles</i>	<i>Discharge and estates</i>	<i>Waiting and travel times</i>
Recommendation/s:				
Action to be taken: (include how we use the reference group and communications)				

Creating actions which involve people

- **What is being done now – can we tell people about it?**
- **What can be done now – can we involve people in developments?**
- **What could be in future plans – can people help shape the design?**
- **What can't we do – can we tell people why or who can and refer the information?**

Key themes – Suggested owners

Parking – hospital sites	Lesley
Access – built environment, signage and information	Lesley
Access –access to GP services	CCG - Jen
Travel between hospital sites – shuttle bus/bus service and bus stops	Neale
Public transport	Neale
Reduce travel – technology & CC2H,home, care pathways Other - Mobile Services	CCG - Jen
Discharge and patient transport	Martin
Other – road networks and infrastructure	Tim
Other – ambulance	YAS
