

NHS Calderdale CCG's response to your request can be found in the Excel spreadsheet attached.

In relation to your requests around independent providers of Neuropsychiatry, General Learning Disability and Complex Learning Disabilities

Section 12 of the Act allows a public authority to refuse a request if the cost of providing the information to the applicant would exceed the 'appropriate limit' as defined by the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004.

The Regulations provide that the appropriate limit to be applied to requests received by public authorities is £450 (equivalent to 2.5 days of work). In estimating the cost of complying with a request for information, an authority can only take into account any reasonable costs incurred in:

“(a) determining whether it holds the information, (b) locating the information, or a document which may contain the information, (c) retrieving the information, or a document which may contain the information, and (d) extracting the information from a document containing it”.

We have made an assessment of your request in relation to providing:

- The total hours of Homecare purchased from all homecare providers within the reference period

The CCG database does not identify diagnosis in our systems; therefore it is difficult to obtain the average price per day for Neuropsychiatry and Complex Learning Disabilities. This was also not recorded for General Learning Disabilities before 2019-2020; this information cannot be found without manually searching all the relevant records. According to our estimates, responding to this question would exceed the appropriate limit as set out above. As such we are refusing these parts of your request under the act. If you would like to discuss ways of narrowing your request to bring it within the cost threshold, please do not hesitate to contact us.
