

FOI 2122127- GP Practice

NHS Calderdale CCG's response to your request can be found below.

**1. Do GP practices in your region undertake any of the following ECG procedures?**

- **Resting ECG**
- **Stress or Exercise CCG**
- **Ambulatory (holter monitoring) 24hr, 48hr, 72hr, 7day**

NHS Calderdale CCG (CCCG) does not commission ECG procedures from their GP practices

**2. If no, in what setting are these procedures undertaken in your region? (e.g. Acute Hospital, Community Hospital etc).**

These procedures are carried out in the Acute hospital setting under the speciality of Cardiology

**3. What tariff costs are currently applied for the following ECG procedures?**

- **Resting ECG**
- **Stress or Exercise CCG**
- **Ambulatory (holter monitoring)**

ECGs are included as part of Cardio-Investigation and are part of a larger Aligned Incentive Contract with Calderdale & Huddersfield NHS Foundation Trust, which for the contract year of 2021/22 is dealt with through national arrangements due to the impact of COVID-19. The local price for Cardiology Investigations under the contract is £52.40

**4. Does the CCG, or any of your provider organisations, currently commission any third-party organisations to undertake ECG analysis activity? (e.g. Broomwell Healthwatch).**

CCCG does not commission any third-party organisations for ECG analysis

**5. If Yes, please provide the name(s) of the provider organisations/service provided.**

Not Applicable

**6. If applicable, what costs are charged by commissioned third party providers for the analysis of ECG's?**

Not Applicable
